Summary

This is a try of our paper. Mainly test how to insert a beautiful table and a nice picture of our work. In the end, we tried how to show a nice Reference.

1 Introduction

Have a try before doing something is very important these days. Since the tasks are getting harder and harder than old days.So we need to get into this kind of trend.

As for this paper. This is a try of our paper. Mainly test how to insert a beautiful table and a nice picture of our work. In the end, we tried how to show a nice Reference.[**?**]

2 Assumptions

To simplify the real life situation, we will accept the following assumptions while we construct our models.

- We have a plenty of time for having a try.

- If we have a try, we can get to work better at the real contest.

3 Notations

Notations	Definition	Unit
T	The totle time for us to have a try	s
t_{min}	The minimize try time	s
